NEW LOCATION

We're moving! Preview Berlin – The Emerging Art Fair, is proud and happy to announce its new location as the HANGAR2 at Berlin Tempelhof airport (www.hangar2.de). HANGAR2 is the ideal mix of a spacious location, ideally designed, which is also rich in history and will be our new venue for the third edition of Berlin's youngest art fair.

A total hall area of 4,200m² plus over 600m² gallery space, will provide room for 55 national and international galleries. During the four days of the fair, Preview Berlin will, once again, present emerging artists and their art – all of the high standard that the fair has set. Despite the geographical and spatial change, Preview Berlin will remain true to its trusted concept. And so it remains our aim, also in 2007, to provide young, up and coming national and international galleries with a professionally organised fair.

Please note the forthcoming dates:
